

Kenneth Setiadharma

ksa277@sfu.ca • (604) 652-7688 • <https://www.linkedin.com/in/kenneth-setiadharma-812826289/>

EDUCATION

Simon Fraser University | Burnaby, BC

Expected Graduation: May 2029

B.Sc. in Computing Science

Relevant Courses: Computer Systems, Data Structures, Algorithms, Files & Databases, Object-Oriented Programming

CGPA: 3.47

TECHNICAL SKILLS

Languages: C, C++, Java, Python, TypeScript

Technologies: TensorFlow/Keras, OpenCV, cvzone, NumPy, Node.js, Expo, React, PostgreSQL

Tools: Git, VS Code, IntelliJ, PyCharm, Jupyter Notebook, Linux, Bash, Supabase

EXPERIENCE

Perceivable Design Studios Inc. | Kingston, Ontario

Jan 2026 - Mar 2026

Software Engineer Intern

- Developed components for an ASL-to-English gesture translation system using Python, TensorFlow, and MediaPipe for real-time hand tracking and recognition.
- Implemented computer vision pipelines to process hand landmark data and classify sign language gestures from webcam input.

St. Mary's Parish | Vancouver, BC

May 2021 - Present

Digital Coordinator

- Coordinated weekly events with over **400+ attendees**, managing audiovisual equipment and volunteer scheduling
- Streamlined live broadcast operations reaching **1,000+ online viewers** weekly across different social media platforms.
- Liaised with church leadership and external vendors to ensure smooth live broadcast operations

City of Vancouver | Vancouver, BC

Aug. 2022 - Present (Seasonal)

Elections Officer

- Guided **300+** voters through the process of voting by issuing ballots and instructions
- Maintained professional communication with **hundreds** of voters while resolving real-time issues in high-pressure environments

PROJECTS

Real-Time Hand Gesture Detector | Python

December 2024

- Developed a real-time hand gesture recognition system using **Python, OpenCV, cvzone**, and **TensorFlow/Keras**.
- Integrated a pre-trained deep learning model, achieving **90%+ classification accuracy** across 3 gestures.

Rubik's Cube Solver | Java

November 2025

- Implemented a solver that reads cube states from text-based net representations and executes valid moves.
- Added features for scrambling, visualization, and structured data parsing to support debugging and testing.

LEADERSHIP

Notre Dame Regional Secondary Badminton | Vancouver, BC

Founder and President

SFU Surge | Burnaby, BC

External Relations
